Dharnish V

AI / Machine Learning Engineer

dharnishv9361@gmail.com | +919361476747 | Kerala, India | GitHub: DharnishV9361 | LinkedIn: Dharnish V

PROFILE

AI / Machine Learning Engineer with experience in Computer Vision, NLP, and backend AI systems. Skilled in Python, YOLOv8, OpenCV, and Spring Boot for developing end-to-end AI applications. Built real-time detection systems, resume skill analysis platforms, and automated monitoring tools.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Skillchemy

Dec 2025 – Jan 2026 | Salem, India

• Developed FitLife fitness program signup platform with responsive UI.

• Integrated Firebase Firestore database for managing user registrations.

• Implemented ZenQuotes API for dynamic fitness tips.
• Built frontend using HTML, CSS, and JavaScript

SKILLS

Programming: Python, Java

Machine Learning: Supervised Learning, Model Training, Model Evaluation, Feature Engineering

AI / Data Science: Data Preprocessing, Feature Extraction, Data Analysis

Computer Vision: YOLOv8, OpenCV, Object Detection, Image Processing

Natural Language Processing: Text Processing, Skill Extraction, Resume Analysis

Backend Development: Spring Boot, REST APIs, Backend System Architecture

Databases: SQL, H2 Database

Tools & Technologies: Git, Maven, VS Code, Firebase

COURSES

Introduction to OpenAI GPT Models, *Infosys Springboard*
08/2025 | online
Gained understanding of *prompt-based AI applications.*

Generative Models for Developers, *Infosys Springboard*
06/2025 | online
Learned fundamentals of *generative models used in modern AI.*

Artificial Intelligence, *Infosys Springboard*
11/2025 | online

CERTIFICATES

Artificial Intelligence – Infosys Springboard (2025)

Generative Models for Developers – Infosys Springboard (2025)

Introduction to OpenAI GPT Models – Infosys

Springboard(2025)

Full Stack Development Internship – Skillchemy (2026)

EDUCATION

B.Tech – Artificial Intelligence and Data Science,
KPR Institute of Engineering and Technology
Coimbatore, India
2024 – Present

Relevant Focus Areas:

• Artificial Intelligence
• Machine Learning
• Computer Vision
• Natural Language Processing
• Backend System Development

ORGANISATIONS

Marketing Vice Chair

Association for Computing Machinery (ACM) – KPRIET Student Chapter
Jun 2024 – Present

• Led marketing and outreach initiatives for technical events and workshops.
• Contributed to organizing Nunnarva'25 – National Level Technical Symposium.
• Played key role in organizing CICADA'25 – National Level Hackathon.

PROJECTS

Wild Boar Detection System – Computer Vision AI

Feb 2026 – Present

Tech Stack: Python, YOLOv8, OpenCV, Spring Boot, REST APIs, H2 Database, Maven, VS Code

• Built real-time wildlife detection system using YOLOv8 and OpenCV.

• Implemented animal detection from images and live webcam feeds.

• Integrated Python AI module with Spring Boot REST APIs and H2 database.

AI Resume Skill Gap Analyzer – NLP System
Mar 2026 – Present

Tech Stack: Python, NLP, Text Processing, Skill Extraction, REST APIs, VS Code
• Developed NLP-based system to extract and analyze skills from resumes.
• Compared candidate skills with job requirements to identify skill gaps.
• Generated personalized recommendations for skill improvement.

UpdateCheck – Website Monitoring Tool

Jan 2026 – Present

Tech Stack**:** Java, Spring Boot, Jsoup, SHA-256 Hashing, REST APIs, H2 Database

• Built backend system to monitor websites for content changes.

• Implemented web scraping using Jsoup and SHA-256 hashing.

• Developed REST APIs with Spring Boot and stored data in H2 database.

FitLife – Fitness Program Signup Platform
Dec 2025 – Jan 2026
Tech Stack**:** HTML, CSS, JavaScript, Firebase Firestore, ZenQuotes API
• Developed responsive fitness signup web application.
• Integrated Firebase Firestore to manage user registrations.
• Implemented ZenQuotes API for dynamic fitness tips.
